Unlock your life with smart solution
Leave your home security to Be-Tech

Various access(RF cards, PIN)
Be-Tech V3A8MT has Two access solutions,RF Card key or PIN code for your convenience.

Invisible keypad
Keypad number can be seen only when you touch the screen with your palm.

Fake PIN code
You can make an instant PIN code for security.

Operation status notification
Whenever any operation is made, the LED indicator informs you what is happened through different color and blinking.

Automatic locking
Door lock will be locked automatically after opening door a few seconds (Manual operation is also available)

Missing key invalidation
Once you lose your key, it has no validation as long as you re-register rest of your keys.

Anti-panic exit system
For convenience and in case of emergency, allows you to open the door by simply turning its handle from inside.

Alarm (Incorrect Fingerprint, RF Card or PIN code)
Alarm will be on and last for 60 seconds if anyone attempts to open the lock by key in 3 times incorrect PIN code .

Low battery warning signal
A continuous "beep" sound during door access will alert you to replace batteries.

Scramble code
You can meaningless number prior to the right code when there is chance of exposing it to others.

Mechanical key override
For emergency, it can also be unlocked with a mechanical key.
