Easy Access  
Leading Keyless Solutions Since 1992

Coffee Gold

**Various access**

Be-Tech i8A1FMT has three access solutions, Fingerprint, RF Card key or PIN code for your convenience.

**One-touch Fingerprint Verification**

One-touch Fingerprint verification technology has been applied to conveniently read a fingerprint in one shot.

**Operation status notification**

Whenever any operation is made, the LED indicator informs you what is happening through different colors and signs.

**Scramble code**

You can enter random numbers prior to the right code when there is a chance of exposing it to others.

**Automatic locking**

Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

**Missing key invalidation**

Once you lose your key, it has no validation as long as you re-register rest of your keys.

**Anti-panic exit system**

For convenience and in case of emergency, it allows you to open the door by simply turning its handle from inside.

**Alarm (Incorrect Fingerprint, RF Card or PIN code)**

Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint, RF Card or PIN code for 5 times.

**Low battery warning signal**

A continuous “beep” sound during door access will alert you to replace batteries.

**Invisible keypad**

Keypad number can be seen only when you touch the screen with your palm.

**Mechanical key override**

For emergency, it can also be unlocked with a mechanical key.
