

## Be-Tech Smart Deadbolt

- Motorized deadbolt
- Auto Locking
- Scramble code

Easy Access  
Leading Keyless Solutions Since 1992

### Sharing and Convenient

You can share code with friends and guests valid for a few weeks, hours, or minutes, and revoke them whenever you need to. Never worry about lost, stolen or copied keys again.

### Various access

There are smart phone, PIN code, fingerprint, mechanical key for your choice. (Smart phone unlocking is base on adding WIFI module)

### Mute function

Turn on or turn off the beep sound is up to your decision.

### Scramble code

When your friends or other people go home with you, scramble code supports you enter random digits before or after the correct access code.

### Auto locking

Enable the auto lock function, it will lock automatically after 4 seconds by default. You also can set your auto lock time between 3 and 30 seconds if necessary.

### WIFI module for IOT use

Comes with the Connect Wi-Fi module (TUYA) so there's no additional hubs needed and it works off your home Wi-Fi.

### Lock/unlock button

Press Lock/Unlock button on the back body to lock/unlock the lock inside the room Optional.

### Locks monitoring

View your lock history, see a list of users, their assigned codes, and each entry time. Get real-time alerts when someone accesses your home.

### USB battery back-Up

The lock can be energized with a power backup when you forget to replace the batteries.

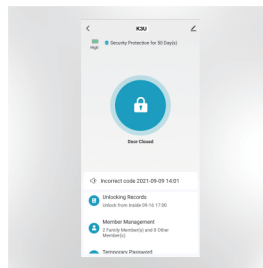

### Remote unlocking

Unlock your door anywhere, never keep a visitor waiting outside the door anymore.

### Mechanical key override

For emergency, it can also be unlocked with a mechanical key.
